

Boardmeeting 9
part I
February 1995

Present Martien Kooyman, Jeff Gordon, Fiede Ingwersen, Carlo Kreiner, Inger Johansson, Nimet Salem, Thomas Renz, George Rynick, Ron Kissick, Terry Cole and Johan Maertens

Agenda

1. Report boardmeeting 8

Enclosed (annex 1) you find the report of boardmeeting 8.

Remarks :

I agree with the new terminology proposed by the teaching fellows (April '94) (assistant therapist, institute therapist) > Martien Kooyman.

A good meeting > George Rynick.

2. Status of assistant therapist

In the former meeting the board decided against the change in terminology. This item will be put on the agenda of the international conference in Washington, USA, later this year.

The board still has to agree on **the content** of the term 'status of assistant therapist' (*and institute therapist*).

2.1. Criteria

1. Assistant (Casriel) therapist :
 - therapy is finished
 - their work is paid
 - for their continual personal work in Casriel therapy (*NIP*) the problem of transference has to be considered to decided if this can go with the same teaching Casriel therapist (*fellow*). This judgement is again the responsibility of the teaching Casriel therapist (*fellow*).
2. Institute (Casriel) therapist
 - finished the third phase of the ISNIP training

2.2. Procedure

1. Assistant (Casriel) therapist :
 - they are enlisted by the chapter as assistant (Casriel) therapist on demand of the teaching Casriel (*fellow*) psychotherapist that takes this responsibility
 - they pay the membershipsfee of a member
2. Institute (Casriel) therapist - in addition to the procedure for the training for (Casriel) psychotherapist (*fellow*) :
 - the institute that will take the responsibility for the clinical work proposes the candidate for training
 - the supervision of the institute Casriel institute (*therapist*) will be done by a teaching Casriel psychotherapist (*fellow*) and agreed in a three partite agreement which is an ongoing condition to be enlisted as an institute (Casriel) therapist by the chapter

Remarks :

The institute therapist should finish the total training including running and leading groups under supervision by a Casriel-psychotherapist. The only difference is that, due to other training, the institute therapist can not lead groups outside an institute, taking the responsibility of psychotherapist, the supervision is done not by a Casriel-psychotherapist but by a professional of the institute > Martien Kooyman.

Johan Maertens	yes
Martien Kooyman	no
Jeff Gordon	pers.
Nimet Salem	yes
Thomas Renz	yes

No decision is taken because of the lack of answers.

3. **European Association for Psychotherapy (EAP) (annex 2)**

On the 2nd December Johan Maertens attended to a meeting of the European Association for Psychotherapy (EAP). This organisation was founded in 1990 by Austria, Switzerland and Germany and was joined in 1992 by France and England. At the moment they have 19 members.

The association helps founding the national organisation for countries that don't have one. The main principles of the EAP are written in the declaration of Strasbourg (see annex 2).

The EAP defends psychotherapy as a profession that cannot be claimed by psychology and medicine as in Italy for instance. They aim at a full training

program (± 7 years), next to the faculties of psychology and medicine with of course the necessary links.

I presented the Flemish/Dutch society as a member for the new Belgium organisation and I need an official mandate to represent the VBP (Vereniging voor Bonding Psychotherapie).

Also on the European level we need to be officially represented. Each therapy organisation that has a European association can have one extra seat in the EAP next to the national representations. This is an item for the agenda of this Boardmeeting because the representation must be official before the end of January 95. In February there are serious negotiations with the EC commissioners about the EAP as EC advisor and representant of psychotherapy ?

3.1. Do the European chapters agree to give Johan Maertens a mandate for the EAP

Remarks :

The V.B.P. should be a member of the E.A.P. > Martien Kooyman.

I can only speak for myself - the D.G.N.I.P. Meets in March + could decide as a chapter then > Jeff Gordon.

Also wonder how I.S.N.I.P. regards I.A.G.P. (Int. Assoc. of Group Psychotherapy) ; how about being a member there ? > Inger Johansson.

I agree with Thomas (see his comments) > Nimet Salem.

I don't consider the E.A.P. as representative of European psychotherapists : the signers of the Declaration of Strasbourg represent the associations opposite (cfr. art.1) the laws that request the study of psychology or medicine as basic education (as in Italy for example). The associations as "Society for Exploration of Psychotherapy Integration (SEPI) or Int. Society for Psychotherapy Research (SPR) can be considered as rigorous and professional > Thomas Renz.

I feel the Americans would also be willing to help and the mandate should be from I.S.N.I.P. > George Rynick.

U.S. involvement ? > Ron Kissick.

I am not European chapter, please include the Americans in this > Terry Cole.

Thomas Renz	no
George Rynick	yes
Terry Cole	yes

Before taken a decision we will talk this over at the Teaching Fellow Conference in Bogève (and if necessary at the international conference in Washington).

- 3.2. Are the European chapters ready to share the costs for attending those meetings ?
Frequency and places are not yet know. The first meeting will be in June 1995
in Zurich.

Remarks :

*I have to clear this general meeting in March ; I think it will be O.K. > Jeff
Gordon.*

Do we have enough money ? > Inger Johansson.

I feel the Americans would also be willing to help > George Rynick.

*The Americans need to be included in these decisions and I back support the
mandate for Johan and would support sharing costs within available recourses >
Terry Cole.*

Conference in Bogève (and if necessary at the international conference in
Washington).*

4. World Council Psychotherapy

- 4.1. Who is candidate to give a lecture on Bonding psychotherapy at the first
congress of the World Council for Psychotherapy (WCP) from 1-5 July 1995 in
Vienna ?

I was asked to do the co-ordination for ISNIP and EAP.

I think we can give a big lecture in a plenary session and several workshops
during this congress. Send me your proposals urgently.

Remarks :

Not yet known > Martien Kooyman.

*According to me there is no non-European country or non-E.A.P. associations
that participate in this foundation > Thomas Renz.*

*I would like to give a workshop. I would be willing to prepare and deliver a
lecture if asked. I would concentrate on what N.I.P. offers that is distinctly our
contribution in integrating emotions with intellect > George Rynick.*

Johan, Peter, Martien, Koni > Ron Kissick.

4.2. June 95 in Zurich the World Council for Psychotherapy (W.C.P.) will be founded. I will try to be accepted as a member representing ISNIP if the Board agrees

4.2.1. to give me an official mandate

Remarks :

I support Johan in his effort and I.S.N.I.P. in the collaboration with E.A.P. and W.C.P.

4.2.2. that the chapters agree to pay for the extra travelling costs for attending these meetings

Remarks :

*Probably, again I discuss with the D.G.N.I.P. > Jeff Gordon.
Will have to be cleared with the D.G.N.I.P. > Fiede Ingwersen.
If we have the money > Inger Johansson.
Within available recourses > Terry Cole.*

These platforms of EAP and WCP will offer opportunities to promote bonding and our international Casriel institute.

5. Finance - balance sheet USA (annex 3)

Hereby a copy of financial summary 1993 and 1994 of the American ISNIP account for your information (more details at the international office).

We have asked Rachel Light (treasurer USA) to clearly separate the ASNIP and ISNIP account per 01/01/95. If necessary the ISNIP money can be transferred from the USA account to the European account.

No Remarks

6. International Casriel Institute

The very first workshop was cancelled due to a lack of participants. We adapted the numbers, and the first (2nd) workshop had 6 participants. We cancelled the second (3rd) workshop due to a lack of participants. Now we have decided to go on with the program as planned from the third workshop onwards to give the program and the group a chance to grow. With every workshop we cancel we disappoint the ones who enlisted. For December we have 7 participants and for the following workshop 9 candidates.

I propose to continue the training and to a risk some costs per person (under the ten participants).

An evaluation of the International Casriel Institute 1994 will follow.

Remarks :

Cost per workshop is too high ! For that reason urgently revise fast for therapists who structure the theory programme (the committee ?) > Martien Kooyman.

Good decision. It is worth trying > Nimet Salem.

7 participants	-16.000 BEF	-516 \$ for the whole workshop
8 participants	-5.000 BEF	-161 \$ for the whole workshop
9 participants	+6.000 BEF	+193 \$ for the whole workshop

An evaluation of the International Casriel Institute 1994 will follow.

Remarks :

Asa will be in touch with you concerning her visit I.C.I. in February. Will you explain this to her ? > Inger Johansson.

I don't understand the "per person" cost. Is the right hand column the total gain or loss ? (for that session with that number attending ?) If that is the total loss and not the per-person loss then I vote YES. If it costs that for each person, then NO > George Rynick.

If the cost listed is per person : NO. If the cost listed is total cost : YES > Terry Cole.

General remarks

- 1. Due to a misunderstanding in the international office, the boardmeeting has been send to Carlo Kreiner instead of Silvio Quirico until now. We apologise for that and promise to send next boardmeeting directly to Silvio.***
- 2. Since both Jeff Gordon as Fiede Ingwersen have send their fax from Jeff's office and both have about the same handwriting, we could not always make out who wrote what. Our excuses for possible mix-ups.***
