

I.S.N.I.P. - Boardmeeting 17

report September 1996

- Present** Jeff Gordon, Dario Cipani, Inger Johansson, Asa Lööf, Nimet Salem, Domingos Neto, Ron Kissick, Terry Cole and Johan Maertens.
- Absent** Martien Kooyman, Fiede Ingewersen, Silvio Quirico and Thomas Renz.

1. Foundation of the Swiss-France Chapter

Christine Bagnères agreed to start up NIP in France/Paris. Nimet Salem and Johan Maertens are ready to support her during this process and they propose to start up a Swiss-France chapter (same language). Christine Bagnères will present this start at the European conference of Somatotherapy in November '96 in Paris.

9 yes

Greetings to the S-F chapter > Domingos Neto

2. Cooperation with Richard Meyer

Richard Meyer proposes to co-operate with ISNIP and to join together and become members of the EFP and the WFP (see documentation BM 9 - December 94 and BM 11 - August 1995 and in annex invitation TF meeting April 1995).

Johan Maertens proposes to prepare a meeting on this subject with Richard Meyer and to discuss this matter on the BM's at the next international conference in Amsterdam.

6 yes 1 abst.

Who is Richard Meyer ? > Domingos Neto

Next Saturday (October 12th) Asa Lööf will attend a meeting in stockholm. She will have her opinions after that meeting. She will contact Johan Maertens > Inger Johansson.

It's definitely worth working on. Some ideas are more realistic then others. On point 1 we don't really understand what it means incorporated society. The point on working on a NIP document center is important. Let's go on working with ICI working group first and then come back to this subject > Inger Johansson.

We are agreeing to the discussion, and not yet to become members > Ron Kissick.

3. ISNIP communication : internal and external public relations

Enclosed a proposition Doris Agazzi made on communication. As Doris is a marketing specialist her proposition can help us to organise these matters in a better way.

Please, firstly, give your remarks on the text ; and secondly, agree/disagree to develop this further on.

9 agree

The idea seems interesting, quite a bit vague. But this means serious support of systematization > Domingos Neto.

Will send some comments in a few days > Inger Johansson.

We want to compliment Doris on her thorough work. She has covered all of the areas we can think of, and made well reasoned proposals. We think this document should be considered as the basis of a long-range plan for ISNIP for some years to come (we think a five year plan is appropriate) > Ron Kissick.
