

Belluno, Emotional Therapy World Capital.

1-3 ottobre 2021

**Conferenza di ISBP, International Society for Bonding Psychotherapy,
Hotel Da Benito, Ponte nelle Alpi (BL).**

1-3 October 2021: Specialists from all over the world will meet again, for the second time in twenty years in Belluno, to discuss, scientifically and from experience how emotional communication benefits interpersonal relationships and energizes the brain.

Emotions renew relations, recently sedated by the Covid-19 pandemic, and relax and create intimacy and a sense of belonging. The International ISBP Conference is organized and hosted by Fondazione Progetto Uomo. Let's understand the reason behind this choice.

"Progetto Uomo"

*"Siamo qui perché non c'è alcun rifugio dove nasconderci da noi stessi". Don Gigetto.
"We are here because there is no alternative shelter from ourselves"
-Don Gigetto*

How do we avoid the uncomfortable period of youth and prevent the crises that block the adult health? Out of this challenge, Fondazione Progetto Uomo began in 2006.

A solid project was needed to underline and highlight the principles and values of our personal life, those that give freedom and responsibility to us and quality to our relationships, hence, awareness.

Today, wellbeing cannot be achieved for a person without knowledge and competence, matured from personal management of the obstacles between a person and his/her achievements.

"Train, Sustain, Promote". In Emotional Therapy or Bonding Psychotherapy, the methodology developed by ISBP, Progetto Uomo found a therapeutic orientation that, not only is extremely effective, but has also shown great results in helping those in need in all social services.

Bonds between Progetto Uomo and ISBP were born, growing over the years, cementing a stable collaboration. This is the reason behind the confirmation of Fondazione and Belluno as host.

A Few Facts. 8000 participants have been recorded in Bonding Therapy groups in Belluno, about a thousand people every year in our groups called "Happy Family". The great number of interviews conducted in various problematic areas, in social issues such as family's psychiatric disturbances, for which listening abilities, patience, discretion and helping hands are not only needed, but foundations.

The ISBP's choice of Belluno is a recognition of the work Fondazione Progetto Uomo has done over the past years in its territory.

The International Conference is therefore a special occasion to learn about experiences and opportunities, from some of the most respected international witnesses in Bonding Psychotherapy.

Some more information...

Did you know that our Fondazione Progetto Uomo logo was developed in 2005 from a design made specifically by famous artist Franco Fiabane, a nationally known sculptor from Belluno? A restyling is currently trying to extract all the sensitivity that was poured in the drawing by the Maestro, that can clearly be seen in the original drawing.

Fondazione - one goal, countless projects.

In the Fondazione a lot of different associations operate, such as Centro Italiano di Solidarietà di Belluno (Ceis), a non-profit organization that is involved in therapeutic and rehabilitation services, giving alternatives to keeping people in prisons and sustaining families. Website: www.ceisbelluno.org

Cooperativa Sociale Mani Intrecciate is specialized in the introduction into the working environment of disadvantaged individuals providing professional training in agriculture and marketing of crops. Website: www.promozionecosomi.it

Integra is a social cooperative that helps disadvantaged individuals get back into the economic and social local enterprises through working groups, trained by professional instructors.

Following us is a REAL emotion.
